

Care & Maintenance

Marble & Stones products

Congratulations on your purchase of Marble & Stones products. Created to be non-porous, the clever Marble & Stones chemistry will prohibit liquids and chemicals being absorbed. The result is an easy care and hygienic surface. Although Marble & Stones surfaces are tough and durable, they are not indestructible. They will require regular maintenance to keep the product's surfaces at their best.

Color selection and luster finish will determine the amount of attention and care required for your Composite stone and Hybrid surface. As with most materials, darker colors will require additional attention.

Please read the recommendations below to ensure that you enjoy years of service from your investment in our products.

1. Day-to-day

Simply clean your Composite stone or Hybrid surface with warm soapy water using a damp sponge. For regular cleaning, wipe over the surface with a neutral ph cleaner and a microfiber cloth.

2. Spills

In the event of a spill of harsh household chemicals, dyes or the like, in most cases lasting damage can be prevented with minimal effort, immediately clean with a damp sponge, using appropriate safety measures and wipe clean with a microfiber cloth.

If the spill has not been removed, clean the entire surface with an alkaline ph cleaner and a wet sponge, using a circular motion. To maintain uniformity, do not apply too much pressure nor rub in the same area for a prolonged time. Clean well and wipe dry.

This will restore matte / sheen luster to the surface of your product. If your Composite stone or Hybrid product is a gloss finish, please contact our customer support team for specific advice.

3. Scratches and Rejuvenation

After years of service, you can rejuvenate your surface to an as-new finish. You may wish to arrange with our support to complete a professional re-sanding and re-polishing of your surface.

4. Repairs

In case of any damage, please contact our Support Team. Our surfaces are most of the time repairable.

5. Prevention

Do not use abrasive cleaners, steel wool, metal implements or objects with sharp edges on your Composite stone and Hybrid surface. Harsh chemicals may also cause damage to your surface.

In the unlikely event of any problem with our Marble & Stones Products or to learn more about caring please contact our Support Team (+230) 286 22 22.

EASY TO CLEAN

The long life of your product depends on you, take care of it

Every Agora® solution dyed acrylico fabric collection offers an exceptional combination of strength and functionality. The fabrics are designed with the intention to be strong, durable and resistant. The water resistant finishing further improves the performance characteristics so that the fabrics are stain repellent, easy to clean and require a minimal but constant maintenance.

BASIC TIPS

 Clean Agora® fabrics with neutral soap in lukewarm water: we recommend to clean at a temperature of no more than 30°.

 Bleach may be used, in moderation: chlorine bleach will not affect the coloration of the solution-dyed acrylico fiber and it's for this reason acceptable for stubborn stain removal, including mildew. Chlorine bleach, strong chemicals or detergents will eventually affect the strength of any fiber or cloth, so it is better to use a diluted solution of one part bleach to twenty parts water.

 Do not dry-clean

 Air dry: do not use a clothes dryer

 Iron at low temperature

STAIN	CLEANING SOLUTIONS
BEER	Wipe clean with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully. For stubborn stain removal, follow up with a bleach solution as needed. Rinse carefully.
BERRIES	
BIRD DROPPINGS	
BLOOD (DRIED)	Wipe clean with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully. For stubborn stain removal, follow up with a bleach solution as needed. Rinse carefully.
BUTTER	
CHEWING GUM	Solvent acetone 100%
KETCHUP OR MUSTARD	Wipe clean with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully. For stubborn stain removal, follow up with a bleach solution as needed. Rinse carefully.
CHOCOLATE	
COFFEE	
COLA	Wipe clean with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully.
CRAYON	
GREASE (CAR)	Solvent acetone 100%
INK (PERMANENT, INDIA, BALLPOINT)	Wipe clean with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully. For stubborn stain removal, follow up with a bleach solution as needed. Rinse carefully.
LIPSTICK / COSMETICS	
MILDEW	Soak in a 1:20 solution of bleach to water until stains are removed. Then wash with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully.
MILK / TEA	Wipe clean with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully.
OIL	Solvent acetone 100%
RUST	Saturate with lemon juice, cover with salt, allow to sit for 24 hours, refreshing lemon juice as needed. Rinse and repeat as needed. Then wash with a diluted solution of one part dishwashing liquid to 20 parts water.
SHOE POLISH	Wipe clean with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully. For stubborn stain removal, follow up with a bleach solution as needed. Rinse carefully.
SUNTAN LOTION	
TOMATO JUICE OR MARINARE	Wipe clean with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully. For stubborn stain removal, follow up with a bleach solution as needed. Rinse carefully.
TREE SAP	
WAX (CANDLE)	Allow wax to harden. Peel off as much as possible. Cover with paper towel and iron with low heat, moving paper towel as needed to absorb excess wax. Wipe clean with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully.
WINE	Wipe clean with a diluted solution of one part dishwashing liquid to 20 parts water and then rinse carefully. For stubborn stain removal, follow up with a bleach solution as needed. Rinse carefully.
